

Application No. 10/228,622  
Response to Office Action of January 13, 2006

**AMENDMENTS TO THE CLAIMS:**

1. (Currently Amended) A method for selling automobiles over a computer network comprising:
  - storing a listing of automobiles owned by rental car company and available for sale, the automobiles continuously available for use as a rental car while listed for sale;
  - making the listing of automobiles available over the computer network; and
  - receiving a buy request for an automobile from the listing of automobiles.
2. (Previously Presented) The method of claim 1, wherein the step of receiving a buy request comprises receiving a winning bid in an auction.
3. Cancelled
4. (Previously Presented) The method of claim 1, wherein the step of receiving a buy request comprises receiving a buy request from a buyer at a kiosk.
- 5-8. Cancelled
9. (Currently Amended) A system for selling rental cars over a computer network comprising :
  - a server operable to:
    - store a listing of rental cars available for sale but still while simultaneously available for use as a rental car;
    - provide at least part of the listings of rental cars to a buyer; and
    - receive a buy request for a rental car from the listing of rental cars available from the buyer.
10. (Previously Presented) The system of claim 9, wherein the buy request is a winning bid in an auction.

Application No. 10/228,622  
Response to Office Action of January 13, 2006

11. Cancelled

12. (Previously Presented) The system of claim 9, wherein the buyer is using a kiosk to view the listing of the rental cars.

13-18 Cancelled

19. (Previously Presented) The method of claim 1 further comprising the steps of:  
receiving a search request from a buyer; and  
returning a subset of the listing of automobiles satisfying the search request.

20. (Previously Presented) The method of claim 1 wherein the step of making the listing available over the computer network further comprises making the listing of automobiles available over the Internet.

21-25. Withdrawn

26. (Previously Presented) The system of claim 9 wherein the server is further operable to:  
receive a search request from the buyer; and  
return a subset of the listing of automobiles fulfilling the search request.
